BUILDING OPERATOR CERTIFICATION PROGRAM

PURPOSE

The Building Operator Certification (BOC) Program is a training and certification program developed by the Northwest Energy Efficiency Council and offered by Midwest Energy through a license with the Midwest Energy Efficiency Alliance (MEEA). The purpose of the BOC Program is to encourage efficient operation of buildings resulting in energy savings and improved comfort and safety.

AVAILABILITY

The certification courses funded by this Program will be available through Midwest Energy (as licensed by MEEA) for any Building Operator employed by a company having at least one Kansas commercial or industrial property receiving electrical service from Midwest Energy.

PROGRAM ADMINISTRATION

The Program will be administered by Midwest Energy.

PROGRAM COST

Midwest Energy will reimburse a partner utility and/or MEEA for a portion of its costs associated with administering the regional program and for assisting with Midwest Energy's local program. Midwest Energy will partner with other utilities to offer joint classes to both utilities' customers and will pay a pro rata share of fees associated with offering the classes.

Half of the tuition fee for each certification level (Level 1 or Level 2) will be paid by Midwest Energy to the sponsor or individual paying the tuition. To receive the reimbursements, qualified Building Operators must successfully complete the certification process and submit a reimbursement request to Midwest Energy. The reimbursement form is available by contacting Midwest Energy directly.

TERM OF PROGRAM

The term of this program will be five years from the effective date, pursuant to the terms defined in agreements with MEEA.
