**GENERAL SERVICE SMALL**

**AVAILABLE**

At locations on the Company's existing primary delivery system.

**APPLICABLE**

To any Customer having a maximum demand during the billing months of July, August or September of less than twenty-five (25) kW, for all power and energy uses at any one location where service of a single character is taken through one meter at one point of delivery for which no specific schedule is provided. Customers having a maximum demand greater than 100 kW in non-summer months may not take service under this schedule.

**CHARACTER OF SERVICE**

Alternating current, approximately 60 cycles, single-phase, at Company's standard secondary voltage available from appropriately sized transformer(s). Three-phase service may be supplied at the Company's option.

**MONTHLY RATE**

Charges equivalent to the sum of all components itemized in the currently effective Master Tariff, plus applicable adjustments and surcharges.

**MINIMUM BILL**

The Customer Charge, plus the minimum specified in the Electric Service Agreement (if any), plus applicable adjustments and surcharges.

**UNMETERED SERVICE**

At the Company's discretion, service to minimal linear loads may be provided without metering. Unmetered service refers to electric service which is not measured by a watt-hour meter. This type of service may apply, at Company's option, to delivery points for which it is impractical or difficult to install and read meters. In addition, it may apply, at Company's option, to delivery points with minimal linear loads. The usage is calculated by using typical hours of use and rated equipment loads. The applicable rates shall be the General Service Small first block per kWh rate (including adjustments and surcharges) plus a customer charge of \$5.00 per month.

GENERAL SERVICE SMALL

OTHER TERMS AND CONDITIONS

- 1. At the Company's discretion, loads of greater than twenty-five (25) kW in the billing months of July, August or September, such as ball field lighting, may be served under this schedule if the Company determines that the load to be served will not contribute to the Company's annual system peak kW responsibility. In such cases, a demand meter may not be installed. Unmetered service is not an option in these circumstances.
2. Oil field customers less than ten (10) kW demand may choose this or the optional General Service Small schedules. The Transmission Delivery Charge applicable to small oil field customers is defined in schedule TDC and is different than for other General Service Small customers.
3. Service hereunder is subject to the Electric Terms and Conditions of the Company on file with The State Corporation Commission of Kansas.
