Company Wide

(Territory to which schedule is applicable)

which was filed September 5, 2008

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 2 of 5 Sheets

HowSmart® RIDER

CONSERVATION PLAN

The Conservation Plan will be developed by the Company and specify measures recommended by the Company to the prospective HowSmart® Customer. The Conservation Plan includes:

- Estimated Resource Savings – The modeled change(s) in costs of resources consumed at the premise attributable to the efficiency measure(s) recommended. The Company will be solely responsible for savings estimates and will utilize generally accepted modeling software and techniques.
- HowSmart® Project Charge – The charge to be included on the Customer’s utility bill based on the cost of the proposed measure(s) and the resulting savings. The Company will be solely responsible for calculating the HowSmart® Project Charge utilizing its standard economic model of discounted cash flows. To the extent available, Company will incorporate grants and low-interest funds into calculation of the HowSmart® Project Charge for the benefit of Customers who meet qualifying guidelines of such funding sources.
- In calculating the Project Charge, the Company may add up to five (5) percent of the cost of proposed projects as bid by contractors or vendors to offset HowSmart® program costs. If the Company is able to utilize a low-cost alternative financing source (such as the Efficiency Kansas Loan Program and others), the Company may instead mark-up the interest rate associated with the financing source up to three (3) percent to recover program costs. However, in all cases, the embedded interest rate used in Conservation Plans may not be greater than the allowed rate of return from the Company’s most recent rate proceeding.
- HowSmart® Audit Fee – Building owners (Customers or Landlords) may be charged a \$200.00 Audit Fee for completed Conservation Plans. The charge will be waived for program participants.
- Number of payments – The number of periods for which the HowSmart® Project Charge will apply at the premises. In no case shall the duration of the HowSmart® Project Charge exceed seventy-five (75) percent of the estimated life of the measure or fifteen (15) years, whichever is less.
- In the event that multiple measures are being completed as part of a Conservation Plan, the Project Charge will not appear on the Customer’s bill until all measures have been complete.

Customer’s and Landlord’s (if applicable) signature of the HowSmart® Agreement shall indicate acceptance of the Conservation Plan.

HowSmart® RIDER

OTHER

- 1) This Rider only applies to HowSmart® measures permanently installed as fixtures at the premises. Portable efficiency products such as compact fluorescent lights do not qualify under this Rider. The Company will solely determine permanence of measures or products.
- 2) Premises in which HowSmart® measures will be installed must be permanently anchored to a foundation.
- 3) Commercial/Industrial interior lighting applications are considered permanently installed fixtures under a separate HowSmart® option.
- 4) At its sole discretion, Company may withhold application of this Rider if:
 - a. The structure has an expected life shorter than the payback period, or
 - b. The structure does not meet applicable public safety or health codes.
 - c. Customer's account has a past due balance.
- 5) At its sole discretion, Company will determine the maximum HowSmart® program investment in any year.
- 6) For non-residential HowSmart® projects exceeding \$20,000, the Company, at its sole discretion, may require a security instrument such as a lien, bank letter of credit, or security bond.
- 7) Alternative financing programs (such as the Efficiency Kansas Loan Program and others) utilized through the HowSmart® program may add additional requirements for the customers and/or the Company. The Company and customers will abide by all such requirements if alternative financing programs are utilized.
