Company Wide

(Territory to which schedule is applicable)

which was filed May 5, 2010

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 1 of 1 Sheets

TRANSMISSION DELIVERY CHARGE

APPLICABLE

The Transmission Delivery Charge (TDC) is applicable to the Company's retail electric rate schedules and special contracts where specifically identified. The TDC is the unbundled rate for Company-owned transmission service and appears on the customer's bill as a separate line item.

TRANSMISSION FORMULA RATE

The TDC is based on the Transmission Formula Rate (TFR) established in Docket No. 08-MDWE-594-RTS. The TFR is included in the Company's Open Access Transmission Tariff (OATT) under Attachment H.

SCHEDULE OF TRANSMISSION DELIVERY CHARGES

Transmission Delivery Charges are initially based on the test year ended June 30, 2007 as established in Docket No. 08-MDWE-594-RTS and derived under the TFR. The resulting Net Zonal Revenue Requirement (NZRR) is set forth on line 130 of Attachment H-1 to the OATT. The resulting per unit retail rates are set forth in the OATT under Attachment H-1, page 14 of 14.

ANNUAL UPDATE PROTOCOLS

Updates to the TDC's established in this tariff after the initial period effective on August 15, 2008 will be effective with bills rendered on or after July 1st. The complete implementation protocols are included in the OATT under Attachment H.
