SCHEDULE PAL

MIDWEST ENERGY, INC.

(Name of Issuing Utility)

Replacing Schedule PAL Sheet 1

W System

(Territory to which schedule is applicable)

which was filed July 12, 2005

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 1 of 5 Sheets

**PRIVATE AREA LIGHTING**

Private Area Lighting under this tariff is not available for new installations beginning January 1, 2005. For new installations after this date, see the Company's Lease Area Lighting Schedule LAL.

**AVAILABLE**

Electric service is available under this schedule at points on the Company's existing distribution facilities.

**APPLICABLE**

Applicable to individual Customers for outdoor dusk to dawn lighting service not provided for by the Company's Street Lighting rate schedule or its Recreational Lighting Service.

**EQUIPMENT AND SERVICE PROVIDED**

The Company will install, own and operate the following items designated as standard equipment:

1. Standard fixtures consisting of High Pressure Sodium or Metal Halide lamps nominally rated at the wattage and lumens provided for in this rate schedule. The fixtures may be open or enclosed at the Company's sole discretion, supported by brackets not to exceed four feet in length affixed to existing wood poles.
2. Standard extensions shall consist of a wood pole not to exceed 35 feet in length, and a maximum of 165 feet of circuit to provide service at a Customer designated location. Company may restrict installations of new poles in areas without utility easements, or areas in which installation would increase costs due to access, terrain, or soil conditions or alternatively the Customer may reimburse the Company the incremental cost above the average cost for a standard installation. Private Area Lights served from underground distribution facilities shall be considered a nonstandard installation.

**PRIVATE AREA LIGHTING**

The Company, at its option and upon Customer's request, will install, own and operate nonstandard lamps, poles or other items to meet a Customer's need. A nonstandard installation is one which includes one or more nonstandard units. It may, however, also include one or more standard units. The Company's investment in any new nonstandard installation shall be limited to the installed cost of a standard installation consisting of a standard fixture of similar wattage and if applicable a standard extension. When the cost of such new installation exceeds the cost of the equivalent standard installation, Customer shall pay the entire cost difference, as a contribution in aid of construction, prior to the start of construction. However, if the cost difference between the standard and nonstandard installation exceeds \$90.00 and Customer requests to finance the cost difference, Company shall finance the cost difference and permit that such contribution be paid in twelve (12) equal monthly installments at an interest rate of twelve percent (12%) per annum.

**NET MONTHLY BILL**

**PRIVATE AREA LIGHTING**

**OTHER SCHEDULES**

This schedule is subject to the Energy Cost Adjustment (ECA), Ad Valorem Tax (AVE), and Transmission Delivery Charge.

**DEFINITIONS AND CONDITIONS**

1. Standard fixtures available for installation hereunder shall be determined by the Company on the basis of their quality, capital and maintenance costs, long term availability, general Customer acceptance and other factors.
2. All nonstandard installations will be installed only at the Company's option. Company is under no obligation to maintain an inventory of spare parts for nonstandard installations.
3. Company shall replace lamps for standard fixtures due to ordinary burnout. In addition, Company will order and replace lamps for nonstandard fixtures due to ordinary burnout, however, Company may charge the Customer the incremental cost of the nonstandard lamp upon replacement. Replacement due to breakage for any reason may be charged to the Customer at the Company's actual cost of replacement.
4. Lamps shall be operated by a photo-electric control to provide service from approximately one-half hour after sunset to one-half hour before sunrise, a total of about 4,000 burning hours per year.
5. The Customer shall assume responsibility for notifying the Company when fixtures are inoperative.
6. The Customer shall provide or secure all necessary right-of-way permits and/or easements needed to provide service under this schedule. Customer shall, if required by the Company, inform the Company or Company's contractor of the tolerance zone of the Customer owned underground facilities in the area requested by Company by marking, flagging, or other acceptable methods. Customer owned underground facilities may include utilities such as sewers, septic systems, irrigation systems, water lines, and cable television. The tolerance zone is defined as the area within 24 inches of the outside dimensions in all horizontal directions of an underground facility.
