FROZEN
GENERAL SERVICE LARGE – TIME OF DAY
(Optional Time of Day Rate)

AVAILABLE
At locations on the Company’s existing delivery system at or below 34 kV for Customers that would otherwise be General Service Medium or General Service Large Customers. At the Company’s option, General Service Large—Time of Day may be delivered from a higher voltage. This rate schedule will only be available to customers already receiving service on this rate schedule prior to July 1, 2016.

APPLICABLE
To any Customer having a maximum demand during the summer billing period of 25 kW or more, for all power and energy uses at one location where service of a single character is taken through one meter at one point of delivery for which no specific schedule is provided.

CHARACTER OF SERVICE
Alternating current, approximately 60 cycles, single phase, at Company’s standard secondary voltage available from appropriately sized transformer(s). Three phase service may be supplied at the Company’s option.

MONTHLY RATE
Charges equivalent to the sum of all components itemized in the currently effective Master Tariff, plus all applicable adjustments specified therein.

**Determination of kW Billing Demand**

The billing demand kW will be the highest of A, B, or C below:

A. The highest average fifteen (15) minute kW demand measured during the off-peak period for the period in which the bill is rendered; or

B. Eighty (80) percent of the highest average fifteen (15) minute kW demand measured during the off-peak period for the most recent three preceding billing periods with ending meter reading dates that fall in the summer period; or

C. Twenty (20) kW.

No supplement or separate understanding shall modify the tariff as shown hereon.
MIDWEST ENERGY, INC.

M System

(Territory to which schedule is applicable)

No supplement or separate understanding shall modify the tariff as shown hereon.

GENERAL SERVICE LARGE – TIME OF DAY
(Optional Time of Day Rate)

OTHER TERMS AND CONDITIONS

1. In the event a Customer billed under this Schedule enters the winter billing period with no immediately preceding eleven (11) months’ actual demand readings of 25 kW (27.75 kVA) or more, that Customer may thereafter be billed under a General Service Small schedule until subsequent demand readings dictate use of this Schedule. However, no such rate reclassification may occur if the Customer is bound by a line extension contract to this Schedule.

2. The Customer choosing the optional Time of Day Rate must remain on the rate for one year. Similarly, a Customer that leaves this optional schedule may not return for one year.

3. The Customer may request optional Time and Temperature Service under the General Service Large–Time of Day Rate. However, it is at the sole discretion of the Company to install the metering devices capable of sensing or receiving temperature data. If such devices have been installed, the on-peak energy charge shall apply to only the kWh used during the on-peak period when the temperature threshold has been exceeded. The temperature threshold is between 90 and 95 degrees Fahrenheit. The Customer will be charged an additional $5.00 per month as part of the customer charge to participate in this option.

Once the Customer has elected the Time and Temperature option, it must remain on it for at least one year from the date the optional Time and Temperature service took effect. Similarly, Customer is not eligible to participate in the optional service for one year from the date of withdrawal.

4. Service hereunder is subject to the Electric Terms and Conditions approved by Midwest Energy, Inc. Board of Directors.

Effective: June 17, 2013
