FROZEN IRRIGATION SERVICE – TIME OF DAY

AVAILABLE
At locations on the Company’s existing delivery system operating at or below 34 kV.

APPLICABLE
Service hereunder will be multi-phase, approximately 60 cycles, at Company’s standard secondary voltage available from appropriately sized transformer(s). At the Company’s option, single-phase service may be provided when in the judgment of Company, providing such single-phase service will not diminish the quality of service to other Customers. This rate schedule will only be available to Customers already receiving service on this rate schedule prior to April 17, 2017.

CHARACTER OF SERVICE
Service hereunder will be multi-phase, approximately 60 cycles, at Company’s standard secondary voltage available from appropriately sized transformer(s). At the Company’s option, single-phase service may be provided when in the judgment of Company, providing such single-phase service will not diminish the quality of service to other Customers.

MONTHLY RATE
Charges equivalent to the sum of all components itemized in the currently effective Master Tariff, plus applicable adjustments and surcharges.

MINIMUM MONTHLY BILL
The Customer Charge, plus the minimum specified in the Electric Service Agreement (if any), plus applicable adjustments and surcharges.

TIME OF DAY BILLING PERIODS
The on-peak period is defined as 2:00 p.m. to 9:00 p.m., Monday through Saturday, June 1st through August 31st. All other hours are off-peak.

LOAD SHEDDING
It is the sole responsibility of the Customer to shed loads, either manually or automatically, to reduce consumption during the on-peak periods. The Company will not be required to notify the Customer of the beginning or end of on-peak periods or seasons.
FROZEN
IRRIGATION SERVICE – TIME OF DAY

SPECIAL CONDITIONS
A. The Company will own and operate all electric facilities installed by the Company. The
   Company will furnish the meter complete with meter socket and service drop to a point to be
   agreed on between Customer and Company.
B. The Customer’s equipment must include entrance facilities, phase imbalance and loss of phase
   protection, overload protection devices, and starter and meter loop wiring, all to be built and
   installed in accordance with the National Electrical Safety Code.

OTHER TERMS AND CONDITIONS
1. The Customer may request optional Time and Temperature Service under the Irrigation Time of
   Day Rate. However, it is at the sole discretion of the Company to install the metering devices
   capable of sensing or receiving temperature date. If such devices have been installed, the on-
   peak energy charge shall apply to only the kWh used during the on-peak period when the
   temperature threshold has been exceeded. The temperature threshold is between 90 and 95
   degrees Fahrenheit.

   Once the Customer has elected the Time of Day or Time and Temperature option, the Customer
   must remain on it for at least one year from the date the optional service took effect. Similarly,
   if the Customer withdraws from the optional service, the Customer is not eligible to participate
   in the optional service for one year from the date of withdrawal.

2. Service hereunder is subject to the Electric Terms and Conditions of the Company as approved
   by Midwest Energy, Inc. Board of Directors.
