
GENERAL SERVICE SMALL

AVAILABLE

At locations on the Company's existing delivery system operating at or below 34 kV.

APPLICABLE

To any account having a maximum demand from July 1st through September 30th inclusive of less than 25 kilowatts for all power and energy uses at any one location where service of a single character is taken through one meter at one point of delivery for which no specific schedule is provided or as defined in the Contract for Electric Service. Accounts having a maximum demand greater than 100 kW from October 1st through June 30th inclusive may not take service under this schedule.

CHARACTER OF SERVICE

Alternating current, approximately 60 cycles, single-phase, at Company's standard secondary voltage available from appropriately sized transformer(s). Three-phase service may be supplied at the Company's option.

MONTHLY RATE

Charges equivalent to the sum of all components itemized in the currently effective Master Tariff, plus applicable adjustments and surcharges.

MINIMUM BILL

The Customer Charge, plus the minimum specified in the Electric Service Agreement (if any), plus applicable adjustments and surcharges.

DETERMINATION OF BILLING DEMAND

The billing demand will be the highest kWh or kW measured over a 15-minute interval in the billing period during the following:

- Summer Period – June through September every day from 3:00 PM until 7:00 PM Central Prevailing Time.
- Non-Summer Period – October through May every day for every hour of the day.

GENERAL SERVICE SMALL

UNMETERED SERVICE

At the Company's discretion, service to minimal linear loads may be provided without metering. Unmetered service refers to electric service which is not measured by a watt-hour meter. This type of service may apply, at Company's option, to delivery points for which it is impractical or difficult to install and read meters. In addition, it may apply, at Company's option, to delivery points with minimal linear loads. The usage is calculated by using typical hours of use and rated equipment loads. The applicable rates shall be the General Service Small kWh rate (including adjustments and surcharges) plus a customer charge of \$5.00 per month.

OTHER TERMS AND CONDITIONS

1. If the power factor at any delivery point is less than 90 percent, Company at its sole discretion may require Customer to install power factor correction equipment at Customer's expense. Determination of power factor shall be under conditions which the Company determines to be normal.
2. Service hereunder is subject to the Electric Terms and Conditions approved by Midwest Energy, Inc. Board of Directors.
