No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 1 of 3 Sheets

LEASED AREA LIGHTING

AVAILABLE

At locations on the Company's secondary distribution system where 120 volt service is available.

APPLICABLE

To any Customer who contracts for the illumination of outdoor areas not provided for by the Company's street lighting schedules.

EQUIPMENT AND SERVICE PROVIDED

The Company will install, own and operate the following items designated as standard equipment:

1. Standard "space-light" fixtures shall consist of High Pressure Sodium (HPS), Light-Emitting Diode (LED), or Metal Halide (MH) lamps. The fixtures may be open or enclosed lamps at the Company's discretion, supported by brackets not to exceed four feet in length affixed to existing wood poles.
2. Standard "floodlight" fixtures shall consist of enclosed lamps supported by brackets not to exceed four feet in length affixed to existing wood poles.
3. Standard extensions shall consist of a wood pole not to exceed 35 feet in length, and a maximum of 165 feet of circuit to provide service at a Customer designated location. If an additional pole or poles are required to safely reach the Customer's designated location, additional charges may apply. Standard extensions may be connected in cascade. A standard installation will consist of one or more standard units of equipment.
4. Area lighting services served from underground distribution facilities shall be considered a nonstandard installation.
5. Mercury Vapor fixtures are no longer available for new installations. The decision to repair or replace Mercury Vapor lamps with another type shall be at the Company's discretion.

The Company, at its option and upon Customer's request, will install, own and operate nonstandard lamps, poles or other items to meet a Customer's needs. A non-standard installation is one which includes one or more non-standard units. It may, however, also include one or more standard units.

LEASED AREA LIGHTING

MONTHLY RATE FOR STANDARD INSTALLATIONS

Charges equivalent to rates in the currently effective Master Tariff, plus applicable adjustments and surcharges including the Energy Cost Adjustment (ECA), Ad Valorem Tax (AVE), and Transmission Delivery Charge (TDC).

MONTHLY RATE FOR NONSTANDARD INSTALLATIONS

1. Standard components included as part of a nonstandard installation will be billed at the appropriate metered or unmetered rate.
2. Nonstandard components will be billed at two and five tenths (2.5) percent of the Company's installation investment in such units, (which will include poles, wires, lamps, labor, equipment charges, and all other installation costs.)
3. Energy for nonstandard lamps included in (2) above will be priced at the ECA base (b) value per kWh calculated on the basis of 4,000 hours operation of both lamp and ballast at rated wattage per year and billed in twelve (12) monthly installments.
4. The total monthly bill will be the sum of the above three items.

SPECIAL PROVISIONS

1. Standard fixtures available for installation hereunder will be determined by the Company on the basis of their quality, capital and maintenance costs, long-term availability, general Customer acceptance and any other pertinent factors which, upon request, the Company will make available to any prospective Customer.
2. All non-standard installations will be installed at the Company's option.
3. Lamps will be operated by a photo-electric control to provide service from approximately one-half hour after sunset to one-half hour before sunrise, a total of about 4,000 burning hours per year.
4. Customer will assume responsibility for notifying Company when fixtures are inoperative.
5. Replacement of lamps due to ordinary burnout will be made at Company expense. Company will replace lamps for nonstandard fixtures due to ordinary burnout, however, Company may charge the Customer the incremental cost of the nonstandard lamp. Replacement due to breakage may be charged to the Customer at the Company's discretion using actual replacement cost.

LEASED AREA LIGHTING

SPECIAL PROVISIONS (Continued)

6. Customer will provide or secure all necessary right-of-way permits and/or easements needed to provide service under this schedule.
7. Company may refuse to install or may remove from service upon two (2) days written notice to Customer, any fixture provided for herein if, in the Company's judgment, such fixture or its operation could cause an unsatisfactory condition affecting the quality of life in the immediate area, or the public safety, or could be in violation of any local ordinance or development restriction.

TERMS OF CONTRACT

Service under this schedule will be for the following minimum terms:

1. Standard fixtures (metered or unmetered) – one (1) year term
2. Standard fixtures with standard extensions (metered or unmetered) – three (3) year term
3. Non-standard installation – ten (10) year term

OTHER TERMS AND CONDITIONS

1. In the event a Customer initiates or discontinues service at a location receiving service under this tariff, and at a time not coincident with the monthly billing period, charges billed under this tariff will be prorated to the actual days of service.
2. In the event a customer receives service under this tariff at a location also being billed under the Non-Domestic Annual Service tariff, Schedule AS, charges billed under this tariff will be annualized and prepaid.
3. Service hereunder is subject to the Electric Terms and Conditions as approved by Midwest Energy, Inc. Board of Directors.
