All piping shall be installed and maintained by Customer at Customer’s expense in conformity with Orders and Terms and Conditions prescribed by the Commission and state and local governmental standards and/or requirements. Where Company’s Rate Schedules provide for different classes of service, Customer’s piping, at Customer’s expense, shall be so arranged that each class of service can be metered separately. If Customer’s piping cannot be so arranged, Company shall reserve the right to assign Rate Schedules and priority to Customer’s total requirement.

(2) Multi-Metering Installations

(2) Inspection and Testing of Customer’s Facilities

Prior to the original connection of service to any specific location, Customer’s piping, appliances and appurtenances shall be inspected and approved by a city inspector or other such authorized person for the proper receipt and use of utility service. If a certificate of approval is required by local authorities, it shall be obtained by Customer at Customer’s expense. In the absence of an authorized person representing a governmental agency, the facilities will be inspected by a representative of Company. Such Company inspection shall not impose on Company any responsibility or liability for the safe condition of the facilities. After the commencement of service, Company will not be obligated, beyond the requirements of the Commission’s Office of Pipeline Safety, to inspect Customer’s facilities, although at its discretion, Company shall have the right to inspect and test Customer’s facilities for suspected unsafe conditions at any time.

C. DEFECTIVE CUSTOMER EQUIPMENT

In any case where Company discovers that a dangerous condition exists with regard to Customer’s appliances, equipment, or piping, or on a Customer-owned distribution network from which Customer is served, it may, without advance notice, shut off the service and immediately notify Customer. Service shall not be resumed until such dangerous condition has been eliminated. If Customer is aware that gas is escaping from any equipment or pipe in or about Customer’s premises, or in case of interruption of service, Customer shall notify Company at once.

D. COMPANY EQUIPMENT ON CUSTOMER’S PREMISES

(1) Facilities on Customer’s Premises

(2) Protection of Equipment on Customer’s Premises

All facilities owned and installed by Company at its own expense are the property of Company. If the meter or other equipment belonging to Company are damaged or destroyed due to negligence or misuse by Customer or by any member of Customer’s family, or by an agent, employee or other representative of Customer, then the cost of necessary repairs and/or replacements shall be paid by Customer.
