

Exhibit A:
Simplified Process Interconnection Application and Service Agreement
10KW or less, inverter-based, UL1741-listed

Instructions and Required Documentation:

- Complete ALL fields of the Simplified Process Interconnection Application and Service Agreement (Application hereafter) for Customer-Generator Facility (CGF).
- Include technical specifications for the inverter unit(s).
- Include technical specifications for the renewable generation unit (solar panels, wind generator, etc.).
- Include a site diagram of the premises that includes the location of Company's meter, the disconnect switch, and the renewable generation unit(s).
- A nonrefundable application fee of \$125, payable by check to Midwest Energy, Inc.
- Send completed Application, application fee, and documents via mail or email to:

Midwest Energy, Inc.
c/o Customer Service – Renewable Interconnection
1330 Canterbury Dr.
Hays, KS 67601
email: interconnection-app@mwenergy.com

Interconnection Process:

1. Interconnecting Customer submits a completed application. The application will not be processed unless application fee has been submitted.
2. Company acknowledges to the Interconnecting Customer receipt of the Application within three (3) business days of receipt.
3. Company evaluates the Application for completeness and notifies the Interconnecting Customer within ten (10) days of receipt that the Application is or is not complete and, if not, advises what is missing.
4. Company verifies CGF can be interconnected safely and reliably. Company signs Application approval line and sends to Customer. In certain rare circumstances the Company may require the Interconnecting Customer to pay for minor system modifications. If so, an estimate will be sent back with the approved Application requiring the Interconnecting Customer's consent to pay for the modifications.
5. After installation, Customer returns Certificate of Completion. Prior to parallel operation Company may inspect CGF for compliance with standards, which may include a witness test. Company will then schedule appropriate metering replacement, if necessary. The

Interconnecting Customer has no right to operate in parallel until a witness test has been performed or previously waived on the application form. The Company is obligated to complete this witness test within ten (10) days of the receipt of the Certificate of Completion. If the Company does not inspect the CGF in ten (10) days or by mutual agreement of the Parties, the witness test is deemed waived.

6. Company notifies Interconnecting Customer in writing that interconnection of the CGF is authorized.

Contact and Facility Information:

Contact Information: Provide the contact information for the legal applicant, i.e. the Interconnecting Customer. If another party (e.g. vendor, sales consultant, installer) is responsible for interfacing with the Company, their contact information MUST be provided as well in the Alternative Contact Information portion of the Application.

Prime Mover: Indicate which type of device will be powering the generator from this list: reciprocating engine, microturbine, fuel cell, wind turbine, photovoltaic panel, or other (please specify).

Energy Source: Indicate the energy source to be used by the prime mover from this list: solar, wind, diesel, biodiesel, natural gas, landfill gas, biogas, propane, or other (please specify).

UL1741 Listing: This standard (“Inverters, Converters, and Controllers for Use in Independent Power Systems”) addresses the electrical interconnection design of various forms of generating equipment. Many manufacturers choose to submit their equipment to a Nationally Recognized Testing Laboratory (NRTL) that verifies compliance with UL1741. This “listing” is then marked on the equipment and supporting documentation.

Simplified Interconnection Application and Service Agreement
10KW or less, inverter-based, UL1741-listed

Contact Information:

Legal name and address of Interconnecting Customer (Applicant)

Name: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Telephone (Daytime): _____ (Evening): _____

Fax Number: _____ Email Address: _____

Alternative Contact Information (if different from Applicant)

Name: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Telephone (Daytime): _____ (Evening): _____

Fax Number: _____ Email Address: _____

Facility Information:

Street Address or Physical Location: _____

City: _____ State: _____ Zip Code: _____

Midwest Energy Account Number: _____

Inverter Manufacturer: _____ Model _____

Nameplate Rating: _____ (kW) _____ (kVA) _____ (AC Volts) Single ___ or Three ___ Phase

System Design Capacity: _____ (kW) _____ (kVA)

Prime Mover (Pick one from Contact and Facility Information) _____

Energy Source (Pick one from Contact and Facility Information) _____

UL1741 Listed? Yes No

Estimated Install Date: _____ Estimated In-Service Date: _____

Customer Signature: Attach manufacturer's cut sheet showing UL1741 listing and \$125 application fee. I hereby certify that, to the best of my knowledge, all of the information provided in this application is true, and I agree to the Terms and Conditions on the following page and the terms of the Distributed Resource Interconnection Tariff (DRIT).

Date

Installation of the CGF is approved, contingent upon the terms and conditions of this Agreement and agreement to any system modifications, if required.

(Are system modifications required? Yes___ No___)

Midwest Energy Signature: _____ Date: _____

Midwest Energy waives inspection/witness test? Yes___ No___

Terms and Conditions for Simplified Interconnections

1. **Construction of the Facility.** The Interconnecting Customer may proceed to construct the CGF after the Simplified Interconnection Application and Service Agreement has been signed by the Company.
2. **Interconnection and Operation.** The Interconnecting Customer may operate CGF and interconnect with the Company's system after the following has occurred:
 - a. **Code Inspection:** Upon completing construction, the Interconnecting Customer will cause the CGF to be inspected or otherwise certified by the local electrical wiring inspector with jurisdiction (if applicable).
 - b. **Certificate of Completion:** The Interconnecting Customer returns the Certificate of Completion to the Company.
 - c. **Company Inspection:** Company has completed or waived the right to inspection.
3. **Company Right of Inspection.** Within ten (10) business days after receipt of the Certificate of Completion, the Company may, upon reasonable notice and at a mutually convenient time, conduct an inspection of the CGF to ensure that all equipment has been appropriately installed and that all electrical connections have been made in accordance with the Interconnection Tariff. The Company has the right to disconnect the CGF in the event of improper installation or failure to return Certificate of Completion. If the Company does not inspect in ten (10) days or by mutual agreement of the Parties, the witness test is deemed waived.
4. **Safe Operations and Maintenance.** The Interconnecting Customer shall be fully responsible to operate, maintain, and repair the CGF.
5. **Access.** The Company shall have access to the disconnect switch (if required) of the CGF at all times.
6. **Disconnection.** The Company may temporarily disconnect the CGF to facilitate planned or emergency Company work.
7. **Indemnification.** Interconnecting Customer and Company shall each indemnify, defend, and hold the other, its directors, officers, employees and agents (including, but not limited to, affiliates and contractors and their employees), harmless from and against all liabilities, damages, losses, penalties, claims, demands, suits, and proceedings of any nature whatsoever for personal injury (including death) or property damages to unaffiliated third parties that arise out of, or are in any manner connected with, the performance of this Agreement by that party, except to the extent that such injury or damages to unaffiliated third parties may be attributable to the negligence or willful misconduct of the party seeking indemnification.
8. **Limitation of Liability.** Each party's liability to the other party for any loss, cost, claim, injury, liability, or expense, including reasonable attorney's fees, relating to or arising from any act or omission in its performance of this Agreement, shall be limited to the

amount of direct damage actually incurred. In no event shall either party be liable to the other party for any indirect, incidental, special, consequential, or punitive damages of any kind whatsoever.

9. **Termination.** This Agreement may be terminated under the following conditions:
 - a. **By Mutual Agreement.** The Parties agree in writing to terminate the Agreement.
 - b. **By Interconnecting Customer.** The Interconnecting Customer may terminate this Agreement by providing written notice to Company.
 - c. **By the Company.** The Company may terminate this Agreement (1) If the CGF fails to operate for any consecutive twelve (12) month period, or (2) In the event that the CGF impairs the operation of the electric distribution system or service to other Customers or materially impairs the local circuit and the Interconnecting Customer does not cure the impairment.
10. **Assignment/Transfer of Ownership of the Facility.** This Agreement shall survive the transfer of ownership of the CGF to a new owner when the new owner agrees in writing to comply with the terms of this Agreement and so notifies the Company.
11. **Interconnection Tariff.** These Terms and Conditions are pursuant to the Company's Distributed Resource Interconnection Tariff (DRIT), as approved by the Kansas Corporation Commission and adopted by Midwest Energy's Board of Directors and as the same may be amended from time to time ("Interconnection Tariff"). All terms set forth in these Terms and Conditions are as defined in the Interconnection Tariff (see Company's website for complete tariff – www.mwenergy.com).

**Simplified Interconnection Application and Service Agreement
Certificate of Completion**
