Contact: _____
Name Title

Address: _____
Mailing Address City ST Zip County

E-Mail: _____

Phone: _____
Office Cell

Midwest Energy will provide five opportunities for \$2,000 donations to local economic development organizations that develop a paid, summer or after school internship program with local businesses in their communities. It is preferred that the business is a customer of Midwest Energy. The business participates by hiring a college or high school student (age 16+) for a paid, summer internship or after school internship. Interns are fully engaged in hands-on projects in a professional work environment, allowing them to exercise skill development. Business interviews, selects, and hires its intern. Interns are employed by the business. The funds can be used for a variety of things including program administration and internship wages. Funding is available on a limited basis.

Description of how funds will be used:

Please return this application to James Wright at:
